Course prerequisites:

Grade XII (H.S.C.). Passion and interest in exploring the maritime past of India and understanding its contemporary relevance.

Course Objectives:

The course aims to comprehend the centrality of the west coast of India and the Indian Ocean in forming the navigational and ship building system in the early modern and modern period of the Indian Ocean sailing age.

It focuses on studying the nuanced aspects of seafaring traditions and the formation of the maritime knowledge system, lexicon exchange and knowledge epistemologies.

Mapping of the tangible and intangible knowledge forms

Understand Indian Navigational Techniques

Examine the impact of globalization on entrepreneurship, commodity circulation, and political economy in the region.

Course Outcomes (CO):

At the end of successful completion of the course the student will be able to

CO1. Develop digital materials for sharing this with laymen in the form of class notes, quizzes, posters and short videos.

CO2. Comprehend the rich maritime history of the west coast of India

CO3. Understand the sea centric approaches in connectivity and circularities.

CO4. Circulation of seafaring knowledge and technology across the littorals of the Arabian Sea navigational Science and knowledge System

Module No.	Unit No.	Details	Hrs.	CO
1		India and the Indian Ocean	08	
	1.1	Overview of the Indian Ocean maritime history		CO1, CO2, CO3,
	1.2	Gulf of Kachchh's role in maritime history		
	1.3	The Maritime Geomorphology/ Ecology/ Topography		
2		Seafaring and Navigation	15	
	2.1	Seafaring Traditions and Communities		CO1, CO2, CO3, CO4
	2.2	Evolution of navigation techniques		
	2.3	Analysis of maritime maps & instruments		
	2.4	Life at Sea		

3	Shipbuilding Techniques		15	
	3.1	Shipbuilding Traditions		CO1, CO2, CO3, CO4
	3.2	Ships and the Development of Maritime Technology		
	3.3	Traditional shipbuilding techniques & materials		
	3.4	Traditional Boatbuilding in the Gulf of Kachchh		
4	Maritime Knowledge		07	
	4.1	Linguistic exchanges in maritime settings		CO1, CO2, CO3,
	4.2	Technical terminologies and cross-cultural interactions		
	4.3	Knowledge Exchange		
Total			45	

Break-up of Continuous Assessment (CA) activities:

PPT	20 marks
field Visits and reports	20 marks
MCQ and article writing	40 marks
Assignments	20 marks
Total	100

Reference Books

Sr. No	Name/s of Author/s	Title of Book	Publisher	Edition/ Year	Short description of the contents
1	Edward Simpson	Muslim Society and the Western Indian Ocean: The Seafarers of Kachchh	Routledge	2006	Based on substantial ethnographic, textual and archival research, this interesting book offers a new perspective on the anthropology of the western Indian Ocean. Writing in a clear, engaging style, and covering an impressive range of theoretical terrain, Simpson critically explores the relationships between people and things that give life to the region and drive shifting patterns of social change among Muslims in the highly politicized state of Gujarat.

2	Chhaya Goswami	Globalization Before Its Time: Gujarati Merchants of Kachchh	Penguin	2016	How did the Kachchhi traders build on the Gujarat Advantage? In the eighteenth and early nineteenth centuries, during the dying days of the Mughal empire, merchants from Kachchh established a flourishing overseas trade. Building on a rich legacy of free trade in pre-modern times between the many ports of Gujarat and the Middle East, the Kachchhis dealt in pearls, dates, spices and ivory with the faraway lands of Muscat and Zanzibar. The Kachchhi merchants behaved much like today's venture capitalists. They knew how to grow capital, seek new markets, and create them where they didn't exist. They also had a phenomenal risk appetite. What they were able to practise was nothing less than the traits of globalization before its time. This new book in The Story of Indian Business series tells their fascinating story.
