Instructions for IA 2 (Poster Making)

Activity: IA-II Poster Making

Objective: To find relevance of Mathematics in engineering and the real world applications.

Total Marks: 20

Due Date and Time of Submission: 3/11/2025 (Monday) 11:59 pm

Cutoff Date and Time (With late penalty): 6/11/2025 (Thursday) 11:59 pm

Instructions:

IA-2 EXTC will be making PowerPoint poster and uploading it on LMS. Please find the following instructions for the same.

- I. Poster must be made on PowerPoint and submitted in **pdf format. (Max 2 slides)**
- II. Size of the poster must be **A3 with landscape alignment**. (Sample template is attached herewith. Basic information must be there. Students can be creative in choosing format, font etc.)
- III. Mention the necessary **college & students details in the title Bar**. (See the sample header attached herewith.) Do not forget to write **references**.
- IV. Allotment of topics for IA-II is as per the attached document in LMS.
- V. **Change of the topic is not permissible.**

Marking Scheme:

Marks for IA are 20. Rubrics are attached herewith.

Criteria	3	2	1	0
Relevance and Mathematical Content	The information provided is relevant to topic assigned. Mathematical content is properly covered	Most information provided is relevant to topic assigned. Mathematical content provided is insufficient.	Most information provided is not relevant to topic assigned. Some of the Mathematical content provided is wrong.	The information provided is not relevant to topic assigned. Most of Mathematical content provided is wrong.
Utilization of Poster	Most part of the poster is utilized to cover maximum information.	There is some scope of covering more information on the poster.	There is a much scope of covering more information on the poster.	Very less information is covered on the poster.
Creativity	Poster is creative	Poster can be more creative	Poster is not so creative	Poster is not at all creative
Plagiarism		Information provided is in own words.	Some information provided is not in own words.	Information is directly copy-pasted from other source.
