

Somaiya Vidyavihar University
K. J. Somaiya School of Engineering, Mumbai-77

Scheme for Internal Assessment (IA) & In Semester Examination (ISE) Syllabus

Programme	B.Tech in Electronics and Telecommunication Engineering	Class	S. Y. B. Tech.
Academic year:	2025-26	Course Code and Name	216U03C404 Signals and Systems
Semester:	IV		
Faculty In-charge	Sangeeta Kulkarni		

Distribution of 20 Marks			
Sr. No.	Task	Description of task/Mode of the task	Schedule
1	Quiz	- Total marks for the IA is 20. The Quiz will be based on module 1, 2 and 4 given in the syllabus - A total of 15-20 questions will be asked. Either MCQ type or fill in blanks . - Each question will carry one or two marks. - Correct answer will be awarded one or two marks each. Wrong answers will fetch zero marks - If absent on the day the IA, (For any reason) re-IA will not be conducted and student may opt IA task as mentioned in point 3 below	After MSE: in March. on any one day as announced earlier.
2	Simulation assignment	- Total marks for the IA is 20. A group of maximum TWO students will work on assignment - The IA is based on all the modules of the syllabus. - Students are expected to refer any research / informative article / web source / material related to concepts or applications of Signals and Systems. - Students are expected to simulate the application using any appropriate software.(Like MATLAB, Python) - Students are expected to prepare a 04 page report with details such as (i) Introduction (ii) Details of application / concept used (iii) Simulation results (iv) Summary / Conclusions (v) Reference to the source from where the application / concept was taken	On or before 5 th April, 2026

Somaiya Vidyavihar University
K. J. Somaiya School of Engineering, Mumbai-77

		• It will be LMS submission for all students • Simulation and Preparation of report – (10 + 10) Marks	
3	Assignment	• This IA is optional and meant for those students who have missed any previous IA or for those who wish to improve their performance based on previous IAs. • Students will be evaluated based on one assignment of fifteen marks. • The assignment should be related to complete syllabus of Signals and Systems and may be solved in hard copy and submitted in offline / online mode.	On or before 5th April, 2026

The student will be evaluated based on first two tasks of 20 marks each. If any of the tasks given is not completed / submitted / shown / evaluated, then the marks assigned for that task will be zero.

Final IA marks (limited to 20) = Average of marks obtained in IA1 and IA2 + Marks obtained in IA3 (applicable for students seeking improvement).
Average of, marks obtained in one of the previous IAs and Marks obtained in IA3 (for students who have missed any of the previous IAs)

ISE Syllabus

Max. Marks	Module no	CO	Remarks if any
30	1, 2 and 4	CO1, CO2 and CO4	-----

Date: 20th January, 2026
