Evaluation scheme for laboratory/tutorial continuous assessment (LAB CA)

Department	Electronics & Telecommunication Engineering		
Programme	EXTC	Year	TY
Academic year	2026-2027	Course Code and Name	216U03C502
Semester	V		CCN
Faculty In-charge			
	Mrs. Savita Raut, Ms. Rehna Salam		

Distribution of LAB CA marks	The student will be evaluated based on following tasks for lab. CA. If any of the tasks given is not completed / submitted / shown / evaluated, then the marks assigned for that task will be ZERO.			
	Task	Description	Tentative schedule (week/month)	Marks
	Laboratory experiments + Attendance	Experiments will be performed in the laboratory. Attendance of Tutorial & Experiment will be consider	Every week starting from first/second week of term till the dispersal of term Attendance: Entire Term	25
	Hardware based task	A hardware task related to networking will be conducted during lab hours	3 rd week of September	10
	Cisco Packet Tracer based Mini project	Mini project with 2-3 students in group . (Can implement any protocol or any other packet tracer based task)	October 3 rd and 4 th Week	15

Somaiya Vidyavihar University
K. J. Somaiya School of Engineering

Calculation of final LAB CA marks (out of 50):

Component 1	Component 2	Component 3
Laboratory experiments	Hardware based task	Mini project
Maximum marks 25	Maximum marks 10	Maximum marks 15
Final LAB CA Marks (Out of 50) = Component 1 (out of 25) + Component 2 (out of 10)+ Component 3 (out of 15)		

Evaluation Rubrics for Laboratory experiments:

Laboratory Assessment Rubrics

Weightage	High	Moderate	Low
Criteria			
Experiment execution (10 marks + 5 marks for attendance)	Performs experiment accurately, follows procedure systematically, handles hardware and software confidently (8-10 marks)	performs experiment with minor errors, needs occasional guidance, hardware and software handling acceptable. (5-7 marks)	Struggles with procedure, frequent errors, improper handling of hardware and software. (0-4 marks)
Observation & result interpretation	Records observations systematically, interprets results logically. (4-5)	minor gaps/errors, result interpretation partially correct. (2-3)	Incomplete/incorrect observations and interpretation of results. (0-1)
Experiment submission (05 marks)	Timely Submission (4-5 marks)	Submission after next immediate turn but within a month (3 marks)	Submission after a month (0-2 marks)

Somaiya Vidyavihar University
K. J. Somaiya School of Engineering

Evaluation Rubrics for Hardware task:

Criterion/ Performance levels	Performance level 1	Performance level 2	Performance level 3
Performance of Hardware task. Ability to answer questions related to the respective task (10 Marks)	Proper hardware connections, use of simulation/verification techniques and execution of the relevant syntax. Answers all questions accurately and comprehensively. (8-10)	Conducted task with some errors but generally correct. Answers some questions accurately but with notable gaps. (4-7)	Frequently made errors, affecting the task outcomes. Struggles to answer questions, lacks understanding. (1-3)

Evaluation Rubrics for Mini project:

Criterion/ Performance levels	Performance level 1	Performance level 2	Performance level 3
Protocol and topology choice (5 marks):	Protocol and topology is related to topic of choice. (4-5)	Protocol and topology is fairly relevant to the topic of choice. (2-3)	0 marks: Protocol and topology is not relevant to the topic of choice. (0-1)
Demonstration/presentation (05 marks)	Effectively conveys the purpose of protocol and implementation details. (4-5)	Lacks clarity in conveying the purpose of protocol and implementation details. (2-3)	The presentation fails to convey a coherent message. (0-1)
Report writing (05 marks)	Well-structured with all required sections .Logical flow and clarity. (4-5)	Most sections present, but some minor gaps in flow/organization. (2-3)	Missing key sections, poorly organized, difficult to follow. (0-1)

Somaiya Vidyavihar University
K. J. Somaiya School of Engineering

Points to be covered for Report Writing:

- Project title with Team details
- Protocol purpose
- Topology Architecture
- Implementation details
- Result
- Inferences
- References

Date: 10/08/2026

Name & signature of Faculty in-charge(s):

Mrs. Savita Raut, Ms. Rehna Salam
